

2008-2009

Educators' Field Studies

“Bringing Relevance to Your Students”

You are invited to join the Midlands Education and Business Alliance and Midlands area businesses in bringing an industry perspective to your classroom. Educator Field Studies connect teachers, counselors, administrators and school board members to the ever changing world of business.

You will hear from professionals in many different career fields on the skills students need today for tomorrow's workforce. Learn how to make your curriculum relevant, useful, and meaningful for your students as you learn how your content area ties to the world of work.

Teachers, Guidance Counselors, Administrators and School Board Members
